

If you're here to download the reflections to print off for yourself they have moved to our new website: <https://www.eagleriverside.com/document-downloads>

If you navigate over there you will find the reflections in this exact form under the document downloads.

We are also now uploading all the reflections to our WordPress site (<https://wordpress.com/home/ednjude.wordpress.com>) where you can see reflections going back quite a ways if you're so inclined.

And if you're looking for the lesson notes you'll find them from now on at <https://www.eagleriverside.com/document-downloads>

There will be growing pains- this may not be the final method for finding/downloading/reading notes and lessons.

Also don't forget we've got a brand new app that you can find all of this as well as lessons (video and audio) going back to the beginning of the Big Story Of The Bible series.
